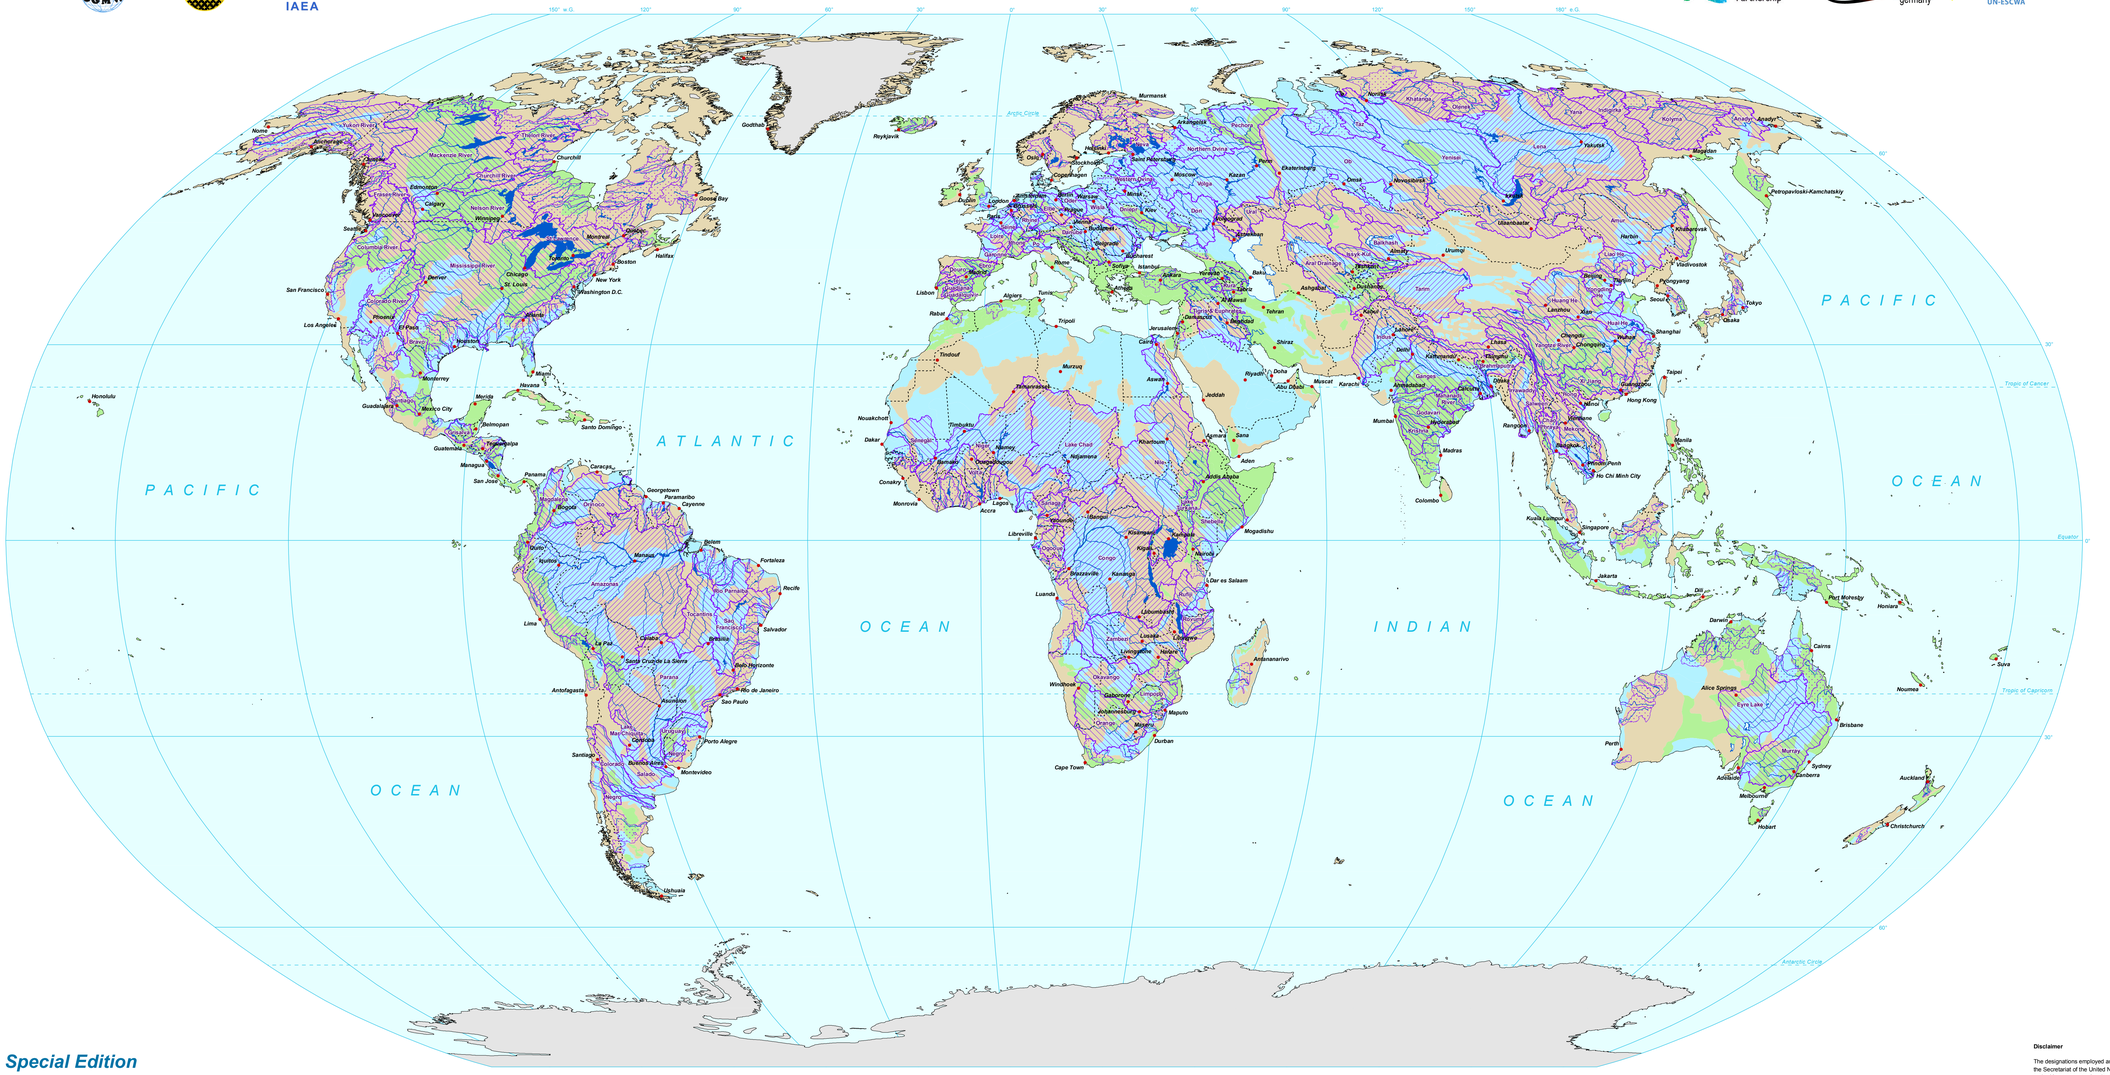
River and Groundwater Basins of the World



Legend

River / Lake basin

- with underlying groundwater basin contained within the boundaries of river / lake basin
- with underlying groundwater basin extending beyond the boundaries of river / lake basin
- less important river / lake basin, partly underlain by groundwater basin
- without ornament: no active river / lake basin, but partly underlain by important groundwater basin

Groundwater

- in major aquifer basin
- in complex hydrogeological structures
- in local and shallow aquifers

Surface water

- major river
- large freshwater lake
- large saltwater lake
- continuous ice sheet

Geography

- selected city
- country boundary

Prepared by

Andrea Richts and Wilhelm Struckmeier (Chief Editors), Stephen Foster, Ulrich Looser, Jean Margat, Shaminder Puri, Andreas Renck, Holger Treidel and the WHYMAP Steering Committee

Under the auspices of

BGR	Hans-Joachim Kümpel and Michael Kosinowski
CGMW	Philippe Rossi and Jean-Paul Cadet
GRDC	Ulrich Looser
GWP	Stephen Foster
IAEA	Pradeep Aggarwal
IAH	Wilhelm Struckmeier and John Chilton
IGRAC	Neno Kukuric
IHP / HWRP Germany	Nicola Fohrer and Johannes Cullmann
INBO	Jean François Donzier and Daniel Valensuela
UNESCO / IHP	Alice Aureli and Lena Salamé
UN-ESCWA	Roula Majdalani

Cartographical editing / GIS

BGR	Uta Philipp, Sandra Groth

Topographic base map

UN (2011):	Cartographic Data
ESRI (2010):	Data & Maps
GRDC (2012):	Rivers & Lakes

modified by BGR (2012)

Map projection

Robinson projection, longitude of central meridian 11°E, spheroid WGS84, geographic coordinates

Special Edition

for the 6th World Water Forum, Marseille, March 2012

Scale 1 : 50 000 000
