

Groundwater Resources of South East Asia and Australia / New Zealand

Groundwater resources

in major groundwater basins
 in areas with complex hydrogeological structure
 in areas with local and shallow aquifers

groundwater recharge (mm/a)

| | | | | |
|-----------|------|--------|-----|----------|
| very high | high | medium | low | very low |
| 300 | 100 | 20 | 2 | 0 |

Special groundwater features

- area of saline groundwater (> 5 g/l total dissolved solids)
- natural groundwater discharge area in arid regions
- area of heavy groundwater abstraction with over-exploitation
- area of groundwater mining

Surface water

- major river
- large freshwater lake
- large saltwater lake
- continuous ice sheet

Geography

- selected city
- selected city, largely dependent on groundwater
- country boundary
